Defect #	Description	Severity	Correction
1	Player can go off screen in Y direction after fixing X.	2	No fix needed but can check Y bounds before X to determine if player is at the top and has won.
2	Sprites fail to load after background texture	3	Generate new XML file for sprite and load on game initialize, before background.
3	Randomized platforms sometimes are impossible to win game	2	Randomize platform position, not size.
